SUBJECT: Reassessment - Halby Chemical Company

DATE: 11/13/89

FROM: Walter F. Lee, OSC *WFL*  
Eastern Removal Section 3HW31

File

TO: Gregg, Chrystall, Chief  
Eastern Response Section

On July 13, 1989, the TAT conducted a reassessment of the Halby Chemical Company at my request. The site had been referred to me by the Remedial Project Officer due to potentially leaking tanks/drums.

As indicated in the accompanying memo no evidence of leaking tanks or drums was found. The separate situation involving the lagoon (which is listed on the NPL) had not visibly changed.

I recommend no further action on this matter.
